I have over 4 years of experience in software development, specializing in Flutter for mobile apps, with more than 10 apps published on Google Play and the App Store. I develop backend solutions using Laravel and PHP, create SPAs with Angular, and build responsive WordPress websites for various industries. Skilled in Bootstrap, I build user-friendly and visually appealing interfaces. I'm experienced in the full app development lifecycle, including deployment, and adapt quickly to new technologies to solve challenges effectively. My focus is on delivering high-quality, user-friendly solutions for both mobile and web platforms.

## Skills

**Programming Languages :** C#, PHP, Dart

**Framework :** Flutter, Laravel, Angular

**Architecture Patterns :** MVC, MVVM, BloC

**Languages :** Turkish, English

**Additional Skills :** Html, Css, Javascript, JQuery, Bootstrap, Github, RestApi, MSSQL, MySql, Firebase, Wordpress, Figma, Adobe Illustrator, Canva

## Work Experiences

**Giray Turizm** June 2024 - Present.

Laravel Developer

- I manage all IT processes to redevelop the purchased software within the company.
- I am developing a web panel using Laravel and deploying the application to servers.
- I utilize GitHub for version control.
- I have created an application that automates complex tasks, including managing contracts and payments for approximately 13,000 vehicles, reading forms from PDFs to register data without user intervention, and automating invoice transfers by reading XML files.
- Additionally, I consolidated all of Giray Group's websites into a single platform, rebuilding them with WordPress as per management's request.

**OVEX Software** October 2024 - May 2024.

Laravel & Flutter Developer

- Developed various mobile applications, including **OSB Teknokent**, **Tedarikçi Bul**, **Can Dostlarım**, **Ardemsoft English**, and **Fıstık Gibi**.
- Responsible for developing all APIs for these projects using Laravel, including user authentication, role management, user registration, and detailed reporting.
- Deployed web applications to servers and specialized in multilingual applications and in-app purchase integrations.
- Utilized Git and GitHub for version control and contributed to continuous integration processes.
- Enhanced technical skills and problem-solving abilities through hands-on project experience.

**Gaziantep Bilişim ve Akıllı Kent Teknolojileri A.Ş.** January 2020 - December 2023

Flutter Developer

- Led the development of the **Genç Gaziantep** mobile application, reaching over 200,000 users and ensuring smooth updates and distribution on both the App Store and Google Play Store.
- Contributed to the development of additional applications like **E-Bisiklet**, **Evim Dünyalara Bedel**, and **Gada**, enhancing user engagement and overall functionality.
- Gained expertise in integrating RESTful APIs for seamless communication between systems and mobile apps.
- Implemented map integration for location-based features, improving user experience with interactive and geolocation functionalities.
- Used OneSignal to manage and send push notifications, driving user retention and engagement.
- Integrated WebRTC to enable real-time video and audio communication features within mobile applications.
- Leveraged Firebase for authentication, Firestore, Cloud Messaging, and app analytics, optimizing app performance and user tracking.

**Gazi Ulaş A.Ş.** October 2020 - December 2020

Angular Developer

- Specializing in Angular, contributed to the development of the HR application's web interface during a three-month tenure.
- Developed Single Page Applications (SPA), enhancing user experience and application performance.
- Gained strong experience in integrating and utilizing REST APIs for seamless data exchange between client and server.

**Perasis** June 2020 - September 2020

Intern Software Developer

- Developed web applications using Angular, focusing on frontend integration with APIs.
- Gained experience in creating Single Page Applications (SPA), enhancing application responsiveness and user engagement.
- Acquired strong skills in utilizing REST APIs for efficient data communication between the client and server.

**Freelance Web Developer** March 2016 - May 2020

Freelance Wordpress Developer

- Since starting university, I have been developing websites on the WordPress platform as a freelancer.
- Over three years, I successfully created more than 15 websites across various sectors.
- My projects include multilingual websites, user registration systems, product promotion sites, corporate sites, news portals, doctor sites, legal practice websites, and dietitian sites.
- I have demonstrated a strong ability to adapt to diverse client needs and deliver tailored solutions that enhance user engagement and satisfaction.

## Education

**Computer Engineering** December 2015 - May 2020

Avrasya University Türkiye/Gaziantep
